Statement of Intent ›

I am seeking a position with a team in Colorado Springs. I have dealt mainly with web and network technologies in the past. I am highly motivated, adapt quickly to new environments, and possess the aptitude to quickly become an asset to your team. I have extremely strong social skills, and am comfortable interacting with clientele.

Skill set ›

Coding background in Ruby on Rails, PHP, ASP, HTML, XHTML, CSS, Amazon Cloud and Windows/Linux based servers.

Strong understanding of social media and search engine optimization. Strong ability to implement internet marketing campaigns.

Understanding of business principals and concepts.

Strong adopter and user of internet technologies.

Creative approach to solving business problems with online technologies

Positive, outgoing personality.

Ability to multi-task, Detail oriented with a "Do-what-it-takes" attitude.

Professional Experience ›
